

EXPOQUIMIA 2014 Barcelona 30/09-3/10 The international Chemistry Event

Tecnum invites you to Expoquimia

If you wish to receive free tickets for Expoquimia Exhibition 2014 reply this email by writing your name, your position and the number of tickets that you wish to receive. We will provide you the code to get access to free tickets of this event.

We are waiting for you in our Stand F 193 Hall P2 Level 0

TECNIUM AGENDA DURING EXPOQUIMIA 2014

- ◆ Presentation of Bio-TR systems to remove gases with a 99% efficacy and minimal exploitation costs.
- ◆ EXOTHERM and CATATHERM systems to remove volatile organic compounds in several sectors such as Graphic Arts, Painting, Pharmacy, etc.).
- ◆ Biologic desulfuration, Bio-Sulf removing Sulfur compounds in air and Biogas flow
- ◆ Pumping system and storage of corrosive fluids
- ◆ .

TECNIUM Process - Control of Gaseous Emissions and Odors Biotrickling

To develop and to incorporate a new technology not always is easy, but to Tecnum being at the **forefront of innovation technology** has been and continues to be the motor of our leadership in the market.

The **development** of this **innovative biological system** has allowed one of the largest paper companies, relies on Tecnum for the supply, turnkey, a unit of biotrickling for the removal of H₂S and **organic compounds (COV's)**, difficult to eliminate with traditional technologies.

The main **ADVANTAGES** for this system

- **REDUCED PHYSICAL SPACE REQUIRED**
- **NULL CONSUMPTION OF REAGENTS**
- **ENERGY SAVING COST**
- **LOW MAINTENANCE**
- **CLEAN**
