TECNIUM NEWS

JANUARY-FEBRUARY 2014

New year 2014

People from Tecnum wish to express their best wishes for the new year 2014 with the hope to continue count in you in the future as a customers and suppliers.

One **more year and it is already 57**, always aiming to put in service and value to our customers. One more year to meet the challenges and opportunities that the current situation and market put us ahead, both in domestic and international markets.

New website

On November a **new website** was launched, **fully updated, modern and functional**, showing detailed information of all our applications for the different industrial sectors we are currently working.

We **invite you** to visit our website: www.tecnum.es and find the information you were looking for in the field of handling and treatment of corrosive fluids.

TECNIUM Process - MBT in Manises

Last January, a **video report** of the project in Manises plant was presented. This video shows in detail the **ventilation and extraction of polluted air plants and the DEODORIZING** facilities that TECNIUM has supplied.

To display the video you can enter on our web www.tecnum.es or downloaded from the following link: <http://youtu.be/35rm7Mjcc3s>
